

LEOPARDS CLASS MEETING FOR PARENTS

SEPTEMBER 2025

WELCOME TO LEOPARDS CLASS!

We hope at the end of the meeting, you will:

- Find out about our class;
- Be aware of the class expectations;
- Find out about our vision, values and learning behaviours;
- Find out how you can help your child at home;
- Have the opportunity to ask any questions you may have.

Living and Learning with Faith, Community and Hope

CHRISTIAN VALUES – THESE ARE THE SIX VALUES WHICH UNDERPIN OUR ETHOS.

Friendship

Respect

Compassion

Responsibility

Perseverance

Courage

Behaviour - Five principles of conduct that underpin practice for staff:

- Consistent, calm, adult behaviour
- First attention for best conduct
- Relentless routines
- The use of scripts for difficult interventions and conversations
- Restorative follow-up

LEARNING BEHAVIOURS

R

E

A

C

H

Rewards

ClassDojo

- ClassDojo points for showing learning behaviours and living our vision and values.
- ClassDojo points will be collected by the House Captains and counted up regularly and the weekly winners will be shared in celebration assembly.
- Certificates for demonstrating our vision and our learning behaviours will be given out in Friday's celebration assembly.

FAITH, COMMUNITY, HOPE

At Marcham CE Primary School, our aim and purpose is summed up in our mission statement: "to achieve excellence in education in a safe, caring, collaborative community where Christian values are integral and learning is fun". We are a caring and happy school that encourages and expects everyone, both children and staff, to give of their best.

We welcome the involvement and the support of parents and appreciate how vital this partnership is to our children's learning and development.

This Home-School agreement aims to enhance this relationship. Written in collaboration with parents, staff and pupils, it sets out the role and responsibilities of each group in this partnership. Working together, we will be able to provide a stimulating and enjoyable education for the children of Marcham School which will enable them to contribute positively to a fast-changing world.

Home-School Agreement

"Ready, respectful, safe."

September 2024

Staff/Teachers

The school will do its best to:

- Make sure your child is enabled to achieve beyond that which they think themselves capable.
- Offer a broad and balanced curriculum which meets the needs of your child and broadens their horizons.
- Welcome parents/carers into the life of the school, keeping you informed about general school matters, and aim to give you adequate notice of events, performances and school trips.
- Develop your child's sense of responsibility for their own learning and behaviour.
- Let you know regularly (at least 3 times a year) how your child is progressing:
- Set your child regular homework tasks, including reading, and ensure that it is marked or acknowledged.
- Contact you as soon as possible if we are concerned about your child's work or behaviour.
- Contact you by 9:30am if your child is absent and the school has not been notified.
- Get back to you within 2 days if you write to us or phone us.
- Offer a range of extra-curricular activities designed to enrich the children's school experience.

Pupils

To help me do well at school, I will do my best to:

- Apply myself to my learning and listen carefully.
- Be polite, helpful and thoughtful towards the other children and adults.
- Come to school and be on time.
- Ask the adults in school or someone at home to help if I find my work difficult.
- Read my books to someone at home.
- Take homework home and do it so that it can be handed in on time.
- Always come to school with the right equipment: take responsibility for my belongings and respect that of others.
- Take good care of the school and the things in it.
- Recognise my responsibility in representing the school while on trips or on my way to or from school.
- Participate in a range of activities and be prepared to work as part of a team.
- Come to school with a positive attitude and help others to enjoy it too.
- Embrace the school values and High-Five learning behaviours.

Parents/Carers

To help my child at school, I will do my best to:

- Make sure that my child attends school and is on time.
- Ensure my child is appropriately dressed for school and school activities.
- Support the school in maintaining good behaviour and discipline.
- Encourage my child to apply themselves to their learning and support them in the homework tasks set, including helping them to find a suitable place and time to do the homework.
- Listen to my child read regularly, in accordance with the Homework schedule.
- Contact school by 9am at the latest if my child is absent.
- Let the school know of any issues at home which may affect my child's work or behaviour.
- Reply to school correspondence.
- Attend open evenings and discussions about my child's progress.
- Take an interest in the wider life of the school and support school events and activities.
- On school grounds, behave in a way that models the school's values.

INFORMATION ABOUT LEOPARDS CLASS

THE ADULTS WHO WORK WITH LEOPARDS

- Mrs Field (Monday – Friday)
- Mrs Allan (Tuesday pm, Thursday and Friday)
- Mrs Simpson (Monday and Wednesday)
- Mrs Walker (Tuesday pm, Wednesday)

- Mrs Philips PPA cover on a Wednesday afternoon

- Mrs Callahan (SENCo) for advice

ROUTINES

- **Collective Worship** takes place every morning.
- **PE is on Tuesday (outdoor) and Friday (indoor).** The children will need to have both an indoor and outdoor PE kit in school. They should aim to have their kits in school every day. We will send these home each half term.
- **Forest School Thursday** (we will start Thursday 18th September).
- **Reading Books** will be changed daily – please send your child's book in daily.
- **Homework** year one is all about reading! 5-10 mins of daily reading of the reading scheme book.
- **Coat and Wellington boots** - Children need to be appropriately clothed to enjoy their time outside.
- Water bottle, a snack (if your child does not enjoy school fruit) and book bag (with book and reading record) to school every day.
- Children do not need to bring anything else to school.
- **Please name everything!** It is hard to work out who's uniform is who's without this information.

FOREST SCHOOL

- Forest School **takes place in a woodland** (Wild Patch) **or natural environment** (within School grounds, Marcham Park) to support the development of a lifelong relationship between the learner and the natural world.
- We aim to develop knowledge, resilience, and self-esteem through hands on experience.
- Forest School is led by myself, a trained Forest School Leader.
- Learning is both child-led and adult led.
- Forest School will take place on **Thursday afternoons** and will **begin next week**.
- Your child will need a change of clothing – we ask this to be old so that it doesn't matter if it gets damaged. Please send trousers (not jeans as these are uncomfortable when wet) and a long sleeved top. As the season changes you will need to add jumper, hat, gloves and warmer coat. Please send clothing in on Thursday morning in a separate bag.
- We will be outside for about 90 minutes and want your child to be warm and snug to gain the best possible experience from these sessions.

HOW WE TEACH

- Pitch our lessons well and ensure learning happens every lesson, every day.
- We ensure consolidation and progression through our planning and medium-term planning structure.
- Help children who are finding things difficult (either academically, socially or emotionally) - we want to close gaps and overcome barriers.
- Ensure that children are challenged. Learning is hard...
- Promote the REACH learning behaviours so that children learn how to be life-long independent learners.
- Staff work as a team and share good practice with each other - we use lots of different professionals both in school and out.

Our Learning and Teaching policy is on the school website.

CURRICULUM

We want our children to have a broad and balanced curriculum and to support the transition from Early Years to Year 1 we begin with a very similar structure to that of Pandas.

Play is still important to children of this age and it is a time to learn and develop many new skills, test ideas and develop thinking. As the term progresses the time for child-led play will reduce and adult-led focus tasks will increase. Across the week we will cover the following lessons:

Mornings: phonics, maths and maths facts, English, reading.

Afternoons: Topic (History/Geography), Art/DT, RE, PE, Science, Computing, Music, PSHE

We sometimes block lessons together to make the best use of learning.

CURRICULUM

Our first topic/theme is: **Toys – Now and Then**

We will learn about toys children play with today and how these have changed from our parents and grandparents toys. Alongside this we will learn how life has changed.

The class topic web will be located on the school website from next week. This will give you further information regarding the teaching and learning this term. The topic web is updated termly.

Experiences which would enrich your child's knowledge:

Learning about toys you played with as a child

Conversations about life in the past/looking at items you or your parents might still have.

Visits to museums (I recommend The Black Country Museum and you can use Tesco Clubcard Vouchers for the entrance fee)

READING

Reading is a key skill and fundamental for learning across the curriculum.

1. Listen to them read every day

A small amount of reading practise every day is more useful than a large block all at once.

Linking the sounds to the letters.

Don't be afraid to reread.

Practise reading away from reading books.

The world is full of text to read – if there are words in the environment that children can read, encourage them to read them as much as possible. There's nothing like the feeling of using your new reading powers in the real world!

2. Read to them every day

Listening to books and stories that they can't yet read independently is vital for helping them to enjoy reading, develop their language skills and comprehension, and eventually become a confident reader themselves. We need to drench them in language!

Make a regular time.

Choose a wide range of books.

Don't be afraid to re-read.

READING AIMS FOR YEAR 1- THINGS TO PRACTISE AT HOME

- Point to words as you read
- Find answers in the text and illustrations about the story
- Self correct as you/your child reads
- Retell a story and discuss the important part of a story.
- Read common exception words (tricky words) from our Phonics Scheme
- Read words with –er, -est, -ing and –ed suffixes
- Read words with contractions
- Read words containing all 40+ graphemes

WRITING — also part of our school development plan

Writing is complex - finding ideas and communicating them in writing is hard. Be positive and find creative ways of practising.

Encourage your children to write at home

- Ask the children to write down the weekly shopping list.
- Write plays that they can perform in front of you – say for a special family occasion – or just a weekly feature!
- Ask the children what they want to watch on TV and get them to make a list, finding out stations, days, starting and ending times.
- Write bedtime stories. The younger children could, the next day, draw pictures of the story and explain what they've drawn and why.
- Write a letter or postcard and send it to a friend or relative.
- Write their own jokes.

WHY IS WRITING SO HARD?

Writing is exceptionally hard for young children to master. They need to be able to:

1. Come up with a word, label, caption or sentence to write
2. Hold the word, label, caption or sentence in their head
3. Segment each word as they write
4. Recall the sounds needed to record a word
5. Know how to form letters
6. Have the dexterity to move a pencil/pen
7. Remember the phrase, label, sentence in order to write the next word.

The cognitive load (the thinking) takes up a lot of space; the more skills we can make automatic, the more space a child has for thinking about what they want to write.

Remember learning to drive...

Handwriting

Handwriting is taught in letter families. We focus on each group for one week. This week we are practicing one-armed robots.

I Struggle with Handwriting! That Means I Might...

Have weak core muscles and poor postural stability

Have difficulties with visual motor integration and/or eye-hand coordination skills

Not process sensory input adequately

Have poor visual perceptual skills

Not be cognitively ready

Have difficulty crossing midline

Have poor hand strength

Have low self esteem

PRE-WRITING ACTIVITIES

before learning to write, ensure your child has had plenty of opportunities to...

MANIPULATE PLAYDOUGH

SQUEEZE PEGS

THREAD BEADS

SQUEEZE TWEEZERS

USE SCISSORS

TRACE WITH INDEX FINGER

TRY LACING

CREATE ART

SQUEEZE PIPETTES

Practice Fine Motor Skills: Pincer Grasp!

What is a Pincer Grasp?

- A pincer grasp is when the tips of the thumb and index finger meet to hold a small object.
- Begins to develop between 10 to 12 months.

Is a Pincer Grasp Important?

- Developing an efficient pincer grasp is key to building hand strength and dexterity needed for handwriting and for manipulating objects.

String Objects!

- String beads, Cheerios, or cut straw pieces onto pipe cleaners or string.

Make a Porcupine!

- Pick up toothpicks. Press them into a ball of putty or Playdoh.

Peel Tape!

- Fix painter's tape or duct tape onto a wall or table. Peel it away.

Push Pompoms!

- Pompoms are the perfect size for working on pincer grasps. Pick up pompoms. Push them into the top opening of a plastic water bottle.

Work Clothespins!

- Label clothespins 1 - 20 or A - Z.
- Clip them onto cardboard in order.

Use Tongs or Tweezers!

- Pick up tiny objects and collect them.
- Say, "Open. Close. Open. Close."

Pick Pieces from Playdoh!

- Hide buttons or pennies in putty or Playdoh. Fingers dig them out.

Paint with Tiny Sponges!

- Cut a kitchen sponge into half-inch squares.
- Dip a tiny sponge into paint or water and create a colorful painting or wash a wall.

HOW TO SUPPORT FINE MOTOR DEVELOPMENT

Gross Motor Play

Most overlooked, yet deeply interconnected and necessary. Gross motor play strengthens the core, neck, head and limbs that coordinate and balance the wrist and hand. Gross motor play provides proprioceptive input, bilateral coordination, and prompts children to cross the midline.

Coloring Utensils

Coloring utensils like crayons and markers, provide opportunities for children to practice controlled movements, promoting grip strength, stability, hand-eye coordination, and precision..

Clay

Engages children in various hand movements such as pinching, squeezing, rolling, pounding, and shaping, which strengthen hand muscles, improve finger coordination, and refine motor control.

Sensory-rich Exploration

Materials like sand, rice, or water, promotes fine motor skills as children scoop, pour, and manipulate objects, stimulating tactile senses, developing hand-eye coordination, depth-perception, while enhancing finger dexterity through hands-on exploration.

Don't Force It.

@WESKOOLHOUSE

ACTIVITIES TO STRENGTHEN PENCIL GRASP

Tweezers

Tongs

Paint Dropper

Tear

Finger Painting

Clothespin

Lacing

Rolling

Staple

ACTIVITIES TO STRENGTHEN PENCIL GRASP

Building Blocks

Cutting

Folding

Glue Stick

Glue Bottle

Hole Punch

Push Pin

Taping

Bead Threading

Developing Fine Motor Skills through *Play*!

- playing with playdough
- cutting and pasting
- stacking building blocks
- scooping and transferring
- sorting small items
- stretching rubber bands
- peeling and placing stickers
- ripping paper
- drawing and painting
- squeezing clothespins
- doing a puzzle
- using pipettes
- squeezing spray bottles
- playing boardgames
- digging in a sandbox
- dressing a doll
- using tweezers
- bending pipecleaners
- using a geoboard
- pouring and measuring
- playing with puppets
- finger painting
- brushing a doll's hair
- stringing beads

Play with bubbles will support handwriting...

12 Benefits of Kids Playing with Bubbles

@TheDaycareTeacher

Improves hand-eye coordination:
Popping bubbles helps kids track movement and react quickly.

Encourages movement:
Kids run, jump, and stretch to reach bubbles, keeping them active.

Boosts sensory development:
The sight, feel, and even the sound of bubbles stimulate their senses.

Helps with focus:
Watching bubbles float teaches kids to pay attention for longer periods.

Promotes curiosity:
Bubbles spark questions and wonder about how they work.

Supports fine motor skills:
Pinching and grabbing bubbles use small muscles in their hands.

MATHS: CALCULATION PROCEDURES

- Information about how we teach Maths can be found on the school website, including PowerPoint presentation given a couple of years ago about how you can help to embed Maths learning at home
- If you are unclear how your child has been taught, because it is different to how you were, then this will be your first port of call. Of course, we want to help you so you can help your child! Please make an appointment with me if you need further help or advice.

T	O

H	T	O

MATHS

- Children often grasp Maths more quickly than English; they hear maths around them far more frequently.
- We are more prone to counting aloud.
- We describe colours, shapes and patterns during conversations.
- We discuss measure more frequently.

Ways to help at home:

- Develop counting by pointing to each item as you say the number name
- Use resources (pegs, cutlery, pens, lego...) to help support calculation skills
- Sort items in different ways (toys, clothing, fruit...)
- Give directions to collect/find items (ontop, under, above, next to...)

HOW YOU CAN HELP YOUR CHILD - MATHS

- I see maths is an organisation recognised by NCETM (National Centre for Excellence in the teaching of Mathematics)
- They have suggested some games parents can play with their child to encourage strategical reasoning and thinking.
- [Games and Resources - I See Maths](#)

HOMework IN YEAR 1

Reading Books – please read with your child daily, 10 minutes of quality time will help your child progress. Use the questions at the back of the book to develop your child's comprehension skills. If reading is a struggle please speak to me at the end.

Phonics – I will send home sound mats for your child to use at home. Children will be familiar with these sounds and should be able to give you example words using these sounds.

Games – we encourage everyone to play games at home. Board games and card games are great for developing language skills, reading, problem solving, turn taking, winning and losing, the list goes on!

Experiences – sometimes we will ask you to complete a practical tasks to support our learning of the wider curriculum during the school holidays.

SPECIAL EDUCATIONAL NEEDS

- SEN covers social, emotional and mental health needs, communication and interaction needs, cognition and learning needs, physical and/or sensory needs, fine motor needs, specific learning difficulties such as working memory needs or processing needs.
- If you think your child might have SEN, or if we think your child might have SEN, we will be in touch or in the first instance please contact your class teacher
- If your child has SEN, there are 3 additional meetings a year - November, February and June. These are with the class teacher and Mrs Callahan may join us.
- The SENCo (Mrs Callahan) has strategic overview of the provision for all children with SEN in the school
- As a school, we know the biggest impact on pupils with SEN is:
 1. Quality First Teaching
 2. Targeted interventions – one-to-one or small group time focused on targets.
 3. Adults asking your child their opinion and adjusting practise as needed
 4. Governors monitoring our SEN support

WAYS YOU CAN HELP YOUR CHILD...

- Please be on time in the morning. Gates open at 8:35am and this allows staff to help your child settle.
- Eat well - bring a fruit snack if your child does not like school fruit
- Send them with a water bottle – Feeling thirsty can affect learning and memory function by 10%
- Read every day – try to make it part of your routine. Be a role model for reading.
- Help your child become independent - make sure they bring the correct things to school, carry their own bags etc.

HOW YOU CAN HELP YOUR CHILD - SLEEP

Sleep helps us to:

- Learn better - our brain forms new pathways in our sleep
- Improve our emotional and mental wellbeing
- Communicate and interact well with others
- Helps us grow, repair cells etc

Please help by building a good bedtime routine which includes reducing screen time before bed, allows your child enough time to wind down and takes account of a drink, going to the toilet etc. White noise/audio books can help your child to drop off to sleep.

HOW YOU CAN HELP YOUR CHILD- DIET AND EXERCISE

- Diet is important to allow our body to grow, repair and recover from illnesses.
- Try to avoid highly processed food – this will cause your child to experience dips throughout the day and often impacts on winding down to sleep too.
- Exercise will look different for every person; find activities your child enjoys and encourage them to be active everyday.
- Exercise allows the body to enter a calm state, it allows the body to be strong enough to sit unsupported for periods of time and allows a child to have the stamina to move with co-ordination
- Please limit screen time – we recognise in school how much children enjoy screens, however, when screens are switched off, children often find it hard to regulate their behaviors needed for learning.

DIARY DATES – CHECK THE NEWSLETTER FOR UPDATES.

- Thursday 18th September – Flu vaccination
- Thursday 2nd October – Harvest Festival – 2pm
- Thursday 2nd October – School photographs
- Thursday 22nd October – Open morning (8.35 – 9.05am) – come and see you child in their classrooms, look at their work and find out about their learning.
- Friday 24th October – INSET day – school closed for children
- Monday 3rd November – Term 2 begins
- Tuesday 2nd December - Parents' evening: more details to follow
- Thursday 4th December - Parents' evening: more details to follow

HOW TO GET HOLD OF ME:

- I am available to chat informally at the end of each day. Please allow children to be given to their parents first and then I am available.
- Alternatively, please feel free to send an email via the school office to arrange a suitable time to talk.
- There is never a silly question or query – if your child is not settled, has concerns about school or is generally unsure, please share this with me so that we can solve this and make their time at school happy and fruitful.

QUESTIONS?

THANK YOU FOR COMING!
