

Vision Evening with Governors and Staff

Faith, Community, and Hope

This week, Governors and Staff came together for an evening focused on building connections and deepening our understanding of the school vision and what makes us unique.

Following prior discussions from the recent inset day, where staff reflected on our shared vision, their insights were presented to the Governors. Together in teams, we collaborated to create a visual representation of Marcham School's vision.

It was a wonderful evening that gave everyone the chance to engage with one another and appreciate the tremendous dedication that staff bring to providing the best possible education for our students. By the end of the night, we were all buzzing with fresh ideas on how to bring our vision of Faith, Community, and Hope to life at Marcham School.
